NIST Cybersecurity Professional (NCSP®) program

Accredited through **APMG International**, certified in the UK by the **National Cyber Security Centre (NCSC)** and listed as qualified cyber training by **Department of Homeland Security Cybersecurity and Infrastructure Security Agency (DHS CISA)** in the USA, the NIST Cyber Security Professional (NCSP®) training program teaches individuals and organizations "**HOW**" to engineer, operationalize and continually improve a NIST Cyber Security Framework (NIST-CSF) Program.
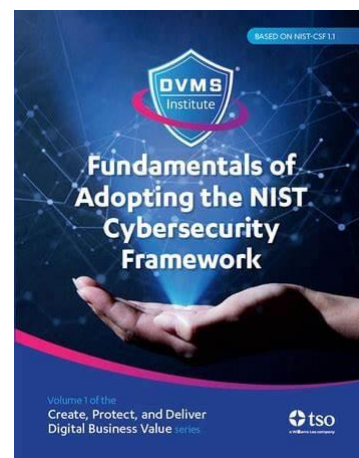

NCSP® Courses

NCSP® Digital Business Risk Awareness Certificate

Training designed to teach all employees the fundamentals of digital business, digital transformation associated cyber risk, why an organization invests in the NIST-CSF, and their role as employees in deterring cyber risk.

Course Features

- UK NCSC Certified, APMG International Accredited, USA DHS CISA Listed Qualified Cyber Training
- 2 hours of instructor-led video presentations OR 1-day of Accredited NCSP® instructor led tuition
- "Fundamentals of Adopting the NIST Cybersecurity Framework" eBook
- Certificate of Completion
- NCSP® Awareness Certificate digital badge
- Access to the NIST Cyber Security Professional (NCSP®) LinkedIn mentoring community
- Access to the Digital Value Management System Institute (DMVS-i) LinkedIn mentoring community

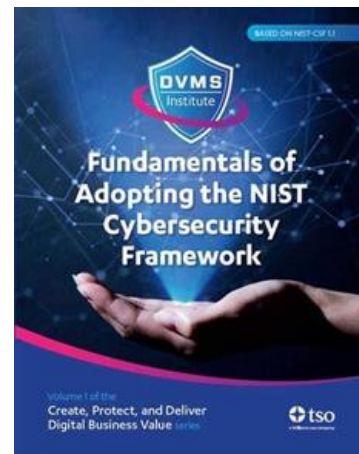

Pre-requisites

There are no pre-requisites for NCSP® Digital Business Risk Awareness Certificate course attendance

NCSP® Foundation Certificate

Training designed to teach cross-silo/business unit employees the fundamentals of the NIST Cybersecurity Framework (NIST-CSF) and how it creates a new way to communicate with C-Level executives about the business value a NIST -CSF program brings to existing digital business applications and employee productivity programs.

Course Features

- UK NCSC Certified, APMG International Accredited, USA DHS CISA Listed Qualified Cyber Training
- 4 hours of instructor led video presentations OR 2 days of NCSP® Accredited instructor led tuition
- "Fundamentals of Adopting the NIST Cybersecurity Framework" eBook
- Exam fees included in price
- Certificate of Completion
- NCSP® Foundation Certificate Digital Badge on successful completion of exam
- Access to the NIST Cyber Security Professional (NCSP®) LinkedIn mentoring community
- Access to the Digital Value Management System Institute (DMVS-i) LinkedIn mentoring community

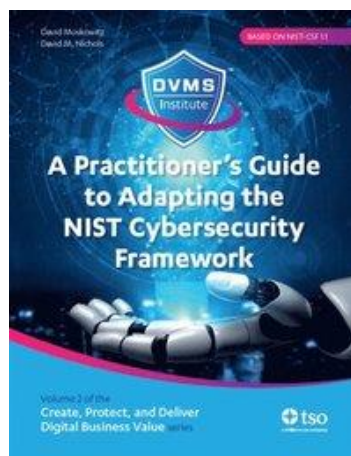

Pre-requisites

There are no pre-requisites for NCSP® Foundation Certificate course attendance

NCSP® 800-53 Practitioner Certificate

Training designed to teach Cybersecurity Practitioners a Fast-Track approach to assessing, engineering, implementing, and operationalizing the NIST Cybersecurity Framework, utilising the NIST 800-53 controls as an informative reference, across an enterprise and its supply chain.

Course Features

- UK NCSC Certified, APMG International Accredited, USA DHS CISA Listed Qualified Cyber Training
- 16 hours of instructor led video presentations OR 5 days of NCSP® Accredited instructor led tuition
- "Practitioners Guide to Adapting the NIST Cybersecurity Framework" eBook
- Exam fees included in price
- Certificate of Completion
- NCSP® 800-53 Practitioner Certificate Digital Badge on successful completion of exam
- Access to the NIST Cyber Security Professional (NCSP®) LinkedIn mentoring community
- Access to the Digital Value Management System Institute (DMVS-i) LinkedIn mentoring community

Pre-requisites

NCSP® Foundation Certificate is a pre-requisite for NCSP® 800-53 Practitioner Certificate course attendance.

NCSP® 800-171 Specialist Certificate

Training designed to teach Cybersecurity Practitioners a Fast-Track approach to assessing, engineering, implementing, and operationalizing the NIST Cybersecurity Framework, utilising the NIST 800-171 controls as an informative reference, across an enterprise and its supply chain.

Course Features

- UK NCSC Certified, APMG International Accredited, USA DHS CISA Listed Qualified Cyber Training
- 2-days of Accredited NCSP® instructor led tuition
- Exam fees included in price
- Certificate of Completion
- NCSP® 800-171 Specialist Certificate Digital Badge on successful completion of exam
- Access to the NIST Cyber Security Professional (NCSP®) LinkedIn mentoring community
- Access to the Digital Value Management System Institute (DMVS-i) LinkedIn mentoring community

Pre-requisites

NCSP® 800-53 Practitioner Certificate is a pre-requisite for NCSP® 800-171 Specialist course attendance.

NCSP® ISO 27001 Specialist Certificate

Training designed to teach Cybersecurity Practitioners a Fast-Track approach to assessing, engineering, implementing, and operationalizing the NIST Cybersecurity Framework, utilising the ISO 27001 Annex A controls as an informative reference, across an enterprise and its supply chain.

Course Features

- UK NCSC Certified, APMG International Accredited, USA DHS CISA Listed Qualified Cyber Training
- 2-days of Accredited NCSP® instructor led tuition
- Exam fees included in price
- Certificate of Completion
- NCSP® ISO 27001 Specialist Certificate Digital Badge on successful completion of exam
- Access to the NIST Cyber Security Professional (NCSP®) LinkedIn mentoring community
- Access to the Digital Value Management System Institute (DMVS-i) LinkedIn mentoring community

Pre-requisites

NCSP® 800-53 Practitioner Certificate is a pre-requisite for NCSP® ISO 27001 Specialist course attendance.
